

About the Legendary Women's Panel

We know that there are women all around us who are “rocking it” in their industry and creating positive change in the world.

In honor of **Women’s History Month** we bring these like minded individuals together to spotlight their amazing accomplishments. Giving all an opportunity to listen to their personal stories for inspiration and empowerment while also providing an evening of networking and professional engagement. This event is all about honoring and impacting women!

Our Charity partner for this year’s event is **Bethany House** whose mission is providing a safe place for healing and personal growth for women, and women with children that are experiencing homelessness.
